Cristina,

Here is the email I sent to my contacts at PADEP about the ethylene oxide emissions at the B. Braun facility.

Thanks,  
Jessie

Hi Craig and Mark,

I just had a quick question regarding Braun. I know that you have checked the facility emissions with your enforcement group, but has there been any communication with the facilities to verify that the reported emissions were correct? Before NATA is released and some of the areas with ethylene oxide emissions show up with high risk, we just wanted to verify that the facilities (B. Braun/Allentown in this case) agree with the emissions that were reported to EPA.

Thanks for any assistance,  
Jessica

**Subject:** FW: Braun

Hi Alice,

Mark Houser ran a report on the emissions for the Braun Medical facility for 2014, 2015, and 2016. It appears the ethylene oxide (EO) emissions are different for the three years, although they are quite similar. If you would like, Soumya can send you their operating permit. Let me know if you want us to dig further into this facility.

Thanks,

Craig
